## Pele Movie

Q1. The movie starts with scene of world cup match in..... \*

1 point

- 1956
- 1957
- 1958
- 1959

Q2. What country did Pelé play soccer for? \*

1 point

- Brazil
- Madrid
- Botswana

Q3. Pele did many jobs because ..... \*

1 point

- His father was a footballer.
- Her mother was an actor.
- He had a poor family and had to work.
- He didn't like school.

Q4. Which is the "primitive" style of football that Pele' was taught to play? \* 1 point

- Dondinho
- Jenga
- de Brito
- Ginga

Q5. Where did Pele live in his childhood? \*

1 point

- Bauru
- Mexico
- Sao Paulo
- Rio de Janeiro

Q6. What is the name of Pele's mother? \*

1 point

- Dondinho
- Dona Celeste
- Zoca
- Zia

Q7. How was Pele called by his family? \*

1 point

- Pele
- Bauru
- Dico
- Bile

Q8. Why is Pele important to Brazilians? \*

1 point

- He played for the national team.
- He helped Brazil win their first ever World Cup
- He scored a hatrick.

Q9. Why is Pele's team nicknamed as "Barefoot Team"? \*

1 point

- They did not have a ball.
- They did not have shoes.
- They did not like to put on shoes.

10. What word best describes Pele's childhood? \*

1 point

- Affluent
- Luxurious
- Impoverished
- Rural

11. Pelé made his international debut in 1957 at age of ... \*

1 point

- 15
- 17
- 16
- 18

12. In the Street match, Dico throws away his shoes and scores a goal. Watching this, his team members \* 1 point

- Continue playing in their shoes
- Throw away their boots and go back to being their authentic self.
- Quit their game because the leader seemed absurd
- Insists Dico wear the shoes

13. The movie: The birth of legend: Pele has background music given by.... \* 1 point

- A.R. Rahman
- James Horner
- Will Jennings
- Bob Dylan

14. Who played Pele's role as a young child? \* 1 point

- Kevin de Paula
- Leonardo Lima Carvalho
- Vincent
- Rodrigo Santoro

15.How did the opponents initially attack Dico's team \*

1 point

- By showing respect to them
- By making fun of them and their identity
- By being friendly with them

16. The movie, "Pele: Birth of a Legends" tells us that \*

1 point

- It is important to doubt yourself when others question you
- It is important to get approval from others and maintain your image
- It is important to have courage to embrace who you truly are

17.How did Pele motivate his team player before the final match? \*

1 point

- He made them remember who they are by initiating Ginga-street style football in the middle of the hotel lobby
- He kept quite and let his team players be drowned by negative criticism of media
- They decided to play like Sweden

18. Pele had \_\_\_ number of his jersey. \*

1 point

- 1
- 17
- 10
- 09

19. Which colour Jersey did Brazil wear for the world cup final's in 1958? \* 1 point

- Yellow
- Green
- Blue
- White

20. As a team, what did Brazil lacked? \* 1 point

- Talent
- Team spirit
- Discipline

## Schottky Diode

### INTRODUCTION

Schottky diode is a device, which comes under the type of a metal semiconductor junction diode. Barrier diode and low voltage diodes are the other names for Schottky diode.

When compared to a PN junction diode, power drop is lower in Schottky diode. A scientist named Walter.H.Schottky first discovered Schottky diode.

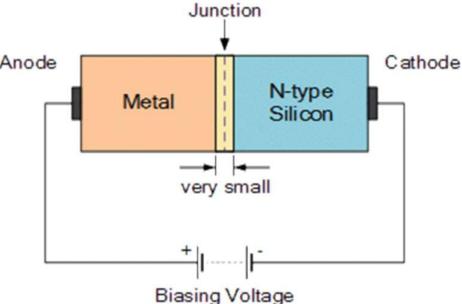

### PRINCIPLE

A Schottky diode, is a semiconductor diode which has a low forward voltage drop and a very fast switching action.

### WORKING

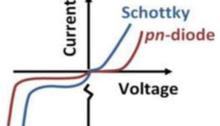

A junction is formed by bringing metal contact with a moderately doped N-type semiconductor material.

There is a small voltage drop across the diode terminals when current flows through a diode

The Schottky barrier diode is a unidirectional device conducting current flows only in one direction (Conventional current flow from the metal to the semiconductor)

### APPLICATIONS

Schottky diodes are used in electronics industry for many applications in diode rectifier because of its properties. They are used for voltage clamping applications, to prevent transistor saturation. It is used as Schottky TTL in digital devices as these devices require fast switching, as the performance of digital computers is determined by switching speed of diodes, Schottky diode is an important component for digital computers

## LIGHT EMITTING DIODE

RENDELL 8821 | ROHIT 8820 | TANISHA 8824 | SHALOM 8822

### DEFINITION:

A *Light Emitting Diode (LED)* is an optical semiconductor device that emits light when voltage is applied. In other words, LED is an optical semiconductor device that converts electrical energy into light energy.

### WORKING:

When LED is forward biased, free electrons from n-type semiconductor and holes from p-type semiconductor are pushed towards the active region.

When free electrons from n-side and holes from p-side recombine with the opposite charge carriers (free electrons with holes or holes with free electrons) in active region, an invisible or visible light is emitted.

### ADVANTAGES:

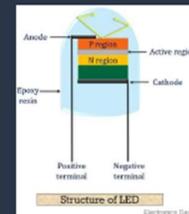

1. The response time is very less – only about 10 nanoseconds.
2. Miniature in size and hence lightweight.
3. An LED has a lifespan of more than 20 years.

### DISADVANTAGES:

1. A slight excess of voltage or current can damage the device.
2. The temperature depends on the radiant output power and wavelength.

### CONSTRUCTION:

One of the methods used to construct LED is to deposit three semiconductor layers i.e. the n-type semiconductor, p-type semiconductor and active region on the substrate. Active region is present in between the n-type and p-type semiconductor layers.

### APPLICATIONS:

Visible LEDs are used in many electronic devices as indicator lamps, in automobiles as rear-window and brake lights, and on billboards and signs as alphanumeric display. Infrared LEDs are employed in autofocus cameras and television remote controls and also as light sources in fibre-optic telecommunication systems

## Paper Presentation and Publication

Publishing papers helps the students to learn the technique of technical paper writing and presentation skills. Hence, students are encouraged to publish papers in esteemed journals and conferences.

### 3) Problem Solving Methodology:

Students are encouraged to participate in various activities like project competitions, exhibitions, in which they learn to find solutions for complex and challenging problems. They are also motivated to take part in inter-disciplinary project development like Robocon (Team Robocon), Baja (Team Abadha), SAE Aero Modelling (Team Vayushastra), Formula Racing (Team CFR), Go-Karting (Team Avisrota), building Drones (Mavericks), Smart India Hackathon and other coding competitions etc.

## Participation in BAJA SAEINDIA

The certificate is titled "EMBRACING CHALLENGES" and "CERTIFICATE OF PARTICIPATION". It certifies that **Shalom Pakhare** is representing **Fr. Conceicao Rodrigues College of Engineering**. The student participated in the BAJA SAEINDIA 2021 event, organized by SAEINDIA under the aegis of Chitkara University from 21st to 25th April 2021. The certificate is signed by **Sagar Bendre** (Convener, BAJA SAEINDIA 2021) and **Harshit Merchant** (Convener, BAJA SAEINDIA 2021). The bottom section lists various sponsors including Chitkara University, Speed, Ansys, Altair, and others. The background features a blue and green geometric pattern with a red race car and a person in a racing helmet.

## Admission for Higher Studies

June 21, 2021

NUID: 002987231  
Campus: Boston

Dear Smith Elias:

It is my pleasure to inform you that you have been accepted into Northeastern University's College of Professional Studies Master of Professional Studies in Analytics program for the Winter 2022 term at the Boston campus with a January start date.

Our regionally accredited programs provide an educational experience that is founded on proven scholarship strengthened through practical application and sustained by academic excellence. Here at the College of Professional Studies, we are committed to providing you with a high level of academic excellence and superior service.

Your acceptance to the College of Professional Studies is granted under the following condition(s):  
You must submit final official transcripts showing degree conferral and date.  
Additionally, your offer of admission is contingent upon your satisfaction of all local, state, and federal laws.

Upon successfully meeting the condition of your acceptance, you will be formally accepted into the program and admitted to the University. If the condition is not met, your conditional admittance will be rescinded and you will not be able to continue to register for classes. Should any changes to your condition of acceptance and/or program requirements occur, you will be notified of the changes and be held to any new standards put in place.

Now that you have been accepted, please confirm that you plan to attend by completing the enrollment confirmation form. This is also a great time to visit our website for accepted students which will help guide you through the enrollment confirmation process and important next steps such as activating your myNortheastern account, submitting official transcripts, and exploring program curriculum.

In addition, you can view our current course offerings online at <https://registrar.northeastern.edu/group/catalog/>. It is important to note that you are required to follow the program curriculum that is in effect during the Winter 2022 term. Please review the curricula at the beginning of your start term to be sure you have the most up to date information.

Registration will open six weeks prior to the start term. Once registration is open for the Winter 2022 term, you should create your myNortheastern account. myNortheastern is a portal where you will receive critical information from the University and College, access billing and course information, and several other student related items. Once you have created your account you can proceed to register for classes via the student portal.

All admitted students who will be studying with an F-1 visa would need a Form I-20. Please contact the office of Global Services to begin your I-20 process at <https://international.northeastern.edu/logs/getting-started/>

On behalf of the faculty and administration at Northeastern University, I would like to congratulate you on your admission. I am sure you will find the College of Professional Studies an exciting and intellectually challenging place to further your education.

Sincerely,

David Fields, Ph.D.  
Senior Associate Dean

The GATE 2021 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,

$M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2021 scorecard

$M_q$  is the qualifying marks for general category candidate in the paper

$M_t$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$ , is the score assigned to  $M_q$

$S_t = 900$ , is the score assigned to  $M_t$

In the GATE 2021 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2021 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.
