Dear Dr. Bhoir,

Thank you for sending across the resumes of the students interested in the internship.
We will go through the resumes and let you know if we need additional details.
We are assuming that the students are familiar with the Python Programming language.

When would be a suitable date for conducting the Analytics Test & Interview?
We are assuming 24 students are interested and will be the only ones appearing for the Test & Interview rounds.

We can begin with the Training and Problem Statement Internship Training 3-4 weeks after finalization of interns.
