

Academic Year: 2023-2024

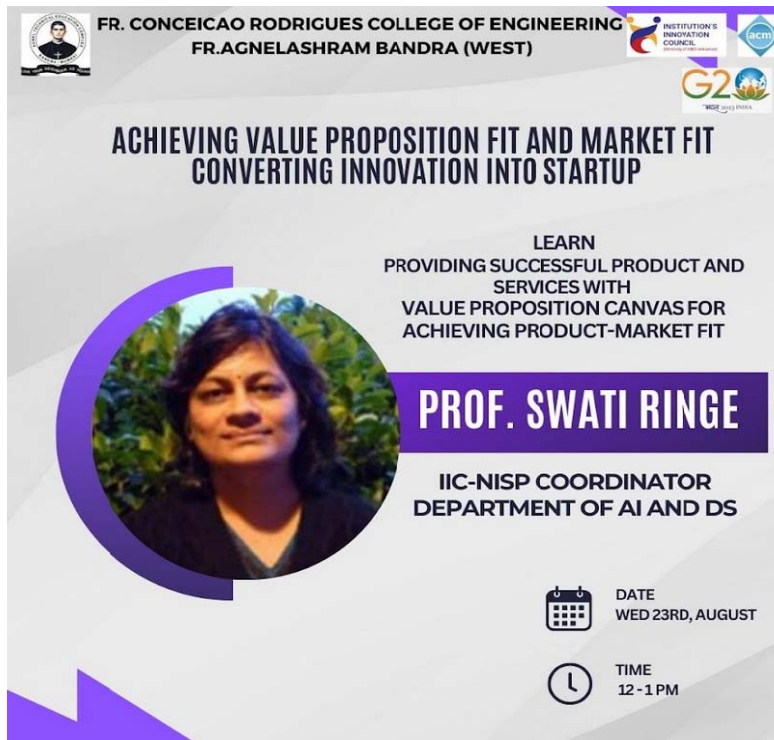

Sr. No.	Event Name	Date	Description
1.	Converting Innovation into startup	23-08-2023	A seminar on “Achieving Value Proposition Fit and Market Fit: Converting Innovation into Startup” was conducted on 23rd August 2023, led by Prof. Swati Ringe. The session focused on innovation, design thinking, and aligning products with market needs using tools like the Value Proposition Canvas. Through case studies and interactive discussions, students gained practical insights into transforming ideas into successful startups, concluding with an engaging Q&A session.
2.	Digital Transformation in startups	15-09-2023	A webinar on “Digital Transformation in Startups and Business” was conducted on 15th September 2023 via Google Meet, led by Dr. Shilpa Khandelwal. The session focused on leveraging technologies like AI, IoT, and big data to drive business growth, enhance customer experience, and remain competitive. Through key concepts and real-world case studies, participants gained valuable insights into adapting to the evolving digital landscape, followed by an interactive Q&A session.
3.	Gen AI and Entrepreneurship	19-02-2024	A seminar on “Generative AI and Entrepreneurship” was conducted on 19th January 2024, led by Bilal Ahmed. The session explored the intersection of AI and startups, covering concepts like RNNs, LSTMs, image generation, and self-attention, along with real-world applications of Generative AI in business. It provided participants with both technical insights and entrepreneurial perspectives, concluding with an interactive Q&A session.

4.	Crescendo 24	22-02-2024	“Shark Tank CRCE” was a two-day entrepreneurial event held on 22nd–23rd February 2024, where students pitched innovative business ideas to a panel of industry experts and faculty. The event focused on concepts like equity, investment, and company valuation, with teams progressing through multiple rounds to present their ideas to investors. It provided participants with hands-on experience in startup pitching and fostered innovation and entrepreneurial thinking.
5.	InnovateX	04-08-2023	A seminar on “Lean Startup and Minimum Viable Product” was conducted on 4th August 2023, led by Prof. Saurabh Kulkarni. The session introduced students to lean startup principles, the concept of MVP, and the importance of iterative development and customer-driven approaches. Through case studies and interactive discussion, participants gained practical insights into building and improving startup ideas, concluding with an engaging Q&A session.
