

Academic Year: 2024-2025

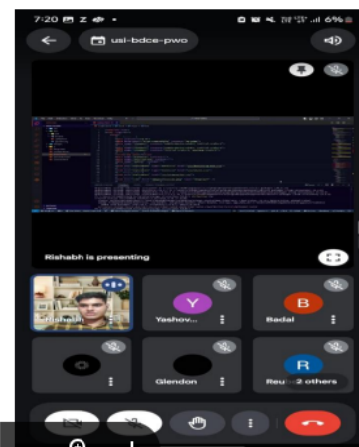

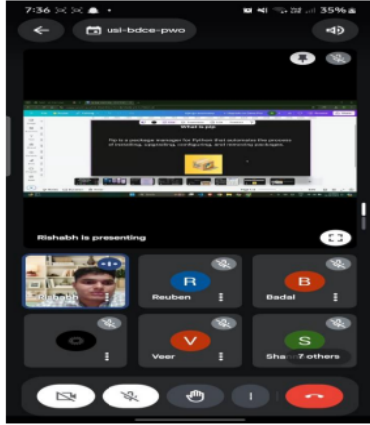

Sr. No.	Event Name	Date	Description
1.	Python and Django Workshop	21-09-2024	A two-day “Python and Django Workshop” was conducted on 21st–22nd September 2024 via Google Meet, led by Rishabh Pathak. The workshop introduced participants to Python programming fundamentals and the Django framework, covering concepts like syntax, data structures, and web application development using the MTV architecture. Through hands-on coding and live demonstrations, students gained practical experience in building basic web applications, making the session highly engaging and informative.
2.	MASTERING AI&ML FOR BUSINESS SUCCESS	03-09-2024	A workshop on “Mastering AI & ML for Business Success” was conducted on 3rd September 2024 via Google Meet, led by Bilal Ahmed. The session introduced key AI/ML concepts, types of machine learning, and real-world applications across industries. Through hands-on demonstrations using Python and libraries like NumPy and Scikit-learn, participants gained practical insights into building basic models, making the workshop both informative and engaging.
3.	Machine Learning Workshop	04-04-2025	A “Machine Learning Workshop” was conducted on 4th February 2025 at the Seminar Hall, led by Rishabh Pathak. The session covered fundamental ML concepts, key algorithms, and real-world applications, along with a hands-on project to provide practical experience. It also offered career guidance on becoming an AI developer, making it an engaging and insightful learning experience for participants.

4.	"My Story" by ACM at Fr. Conceicao Rodrigues College of Engineering	08-11-2024	A "My Story" session was conducted on 8th November 2024, featuring Mr. Elvis Dodti, an alumnus of CRCE. The session focused on his entrepreneurial journey, highlighting the importance of resilience, adaptability, and innovation. Through real-life experiences, project demonstrations, and an interactive Q&A, students gained valuable insights into building successful ventures and developing an entrepreneurial mindset.
5.	"Shark Tank CRCE"	24-10-2025	"Shark Tank CRCE" was a two-day entrepreneurial event held on 24th–25th October 2024, where students pitched innovative business ideas to a panel of judges and real investors. The event included multiple rounds of idea pitching, evaluation, and final presentations, focusing on value proposition, scalability, and business viability. It provided participants with practical exposure to startup pitching, networking, and real-world investment scenarios.
