Report on Workshop conducted by IQAC on August 5,2023

To review the OBE based processes, a day-long workshop was conducted on August 5, 2023 in the Seminar Hall, Ground floor for the teaching faculty.

As per the schedule, the workshop started with a session by Principal Dr. S.S. Rathod who revisited the formulation of Course outcomes. Using modern tools, Dr Rathod demonstrated clearly how CO statements should be formed keeping in mind the Performance Indicators (PI) to be used for assessment. Groups of faculty were formed and faculty made COs for their own courses. Furthermore, Dr Rathod explained using a case study, how PIs were to be mapped and how the justification of mapping (on a scale of 1-3) was to be made. The session was extremely well appreciated with every faculty involved. Also, sample templates for Lesson plan as well as practical plan was shown and it was decided to use this template from AY 2023-24 onwards. An important highlight was the process that Dr Rathod proposed for weak and strong student identification, action taken and impact analysis.

After a busy session, a lunch break ensued. This was followed by a session by Dr. Rajesh Buktar (Professor, Mechanical Department, SPCE) who delivered a session on the “Use of AR tools in teaching”. He demonstrated some of the techniques he had developed which were much appreciated by the faculty.

In the last session, Dr Rathod continued with the activity of CO mapping as well as showed some innovative examples for Assignment as well as Test papers to pique the interest of students. The day ended in a fruitful manner with thanks to resource persons.
